

Saksham Chaurasiya

+91-8982201400 — chaurasiyasaksham23@gmail.com — LinkedIn — GitHub — Portfolio

Education

Chameli Devi Group of Institutions

B.Tech in Computer Science, RGPV University

CGPA: 7.57/10.0

Indore, MP

Sept 2023 – Sept 2027

Technical Skills

Languages: C++, Java, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Socket.IO, Sequelize ORM, EJS

Databases & Cloud: MongoDB, PostgreSQL, MySQL, AWS Cloud Foundations, Cloudinary

Tools: Git, GitHub, Postman, REST APIs, n8n (Workflow Automation)

Core Skills: Full-Stack Development, RESTful API Design, DSA, Generative AI Integration

Experience

Full-Stack Developer Intern

Remote

LeoMonk

April 2026 – Present

- Built and maintained scalable full-stack applications using the Express.js, React.js, Node.js, with Next.js and PostgreSQL, deployed via cloud platforms with CI/CD pipelines.
- Designed and optimized RESTful APIs for complex data workflows, improving query performance through targeted database indexing and query refactoring.
- Implemented Sequelize ORM for structured backend data management; resolved critical database relationship bugs, improving API consistency and reliability.
- Developed responsive, dynamic UI components using React.js and Next.js, enhancing data visualization and user experience across multiple product features.

Projects

Hostel Gate Pass Management System (SaaS) — MERN Stack, RBAC, MongoDB, Cron Jobs

Live |

GitHub

- Architected a multi-tenant SaaS platform with 6-role RBAC and hierarchical approval workflows for institutional access control, enabling scalable onboarding of multiple institutions.
- Engineered QR-based real-time verification and automated pass lifecycle management using cron jobs for expiry and violation tracking, eliminating manual intervention.
- Optimized MongoDB schema design and backend architecture, improving query performance and enabling role-scoped analytics dashboards.

ResumeAnalyzer – AI-Powered Recruitment Tool — n8n, OpenAI API, Google Drive API, Google Sheets 2025

- Engineered an automated resume parsing and evaluation pipeline using n8n workflows, reducing manual screening effort by 60% for recruitment teams.
- Integrated OpenAI API for intelligent candidate scoring and job-fit analysis; connected Google Drive and Google Sheets for end-to-end data storage and reporting.

LiveEase – Full-Stack Booking Platform — Express.js, MongoDB, Mapbox, Cloudinary, EJS

Live |

- Developed a full-stack Airbnb-style booking platform with JWT authentication, listing management, and end-to-end reservation workflows using Express.js and MongoDB.
- Integrated Mapbox API for location-based search and interactive maps; leveraged Cloudinary for optimized image storage and CDN delivery.

Achievements & Certifications

- **Hackathons:** 2nd Runner-Up – HackSprint (1-hour MVP challenge); Top 5 Finalist – Void Hack 6; Winner – Internal Smart India Hackathon Round.
- **GenAI Buildathon** (OpenAI Academy × NxtWave, 2025): Completed Generative AI Mastery Workshop with hands-on exposure to modern GenAI tools and pipelines.
- **DSA:** Solved 100+ problems on LeetCode and GeeksforGeeks (Java).
- **Certifications:** Delta Full Stack – MERN (Apna College) | Programming in Java – NPTEL | AWS Academy Cloud Foundations | MongoDB Developer's Toolkit (GfG).
